We are glad that you can choose to cooperate with GREEN ENERGY FX1 LTD a career that you can benefit a lifetime. Please read the following carefully:

ABOUT GREEN ENERGY FX1 LTD

Greenenergyfx1 is a global leader in diversified energy and digital asset solutions. Greenenergyfx1 is an American-headquartered intercontinental enterprise founded in 2015 with strategic backing from the American governmental energy management authority, OFGEM Group. The company operates across a global network spanning the USA, UK, Germany, Italy, Spain, France, Australia, Japan, New Zealand, and South Africa. As of September 2021, with over two million domestic and business clients, Greenenergyfx1 ranks as the fourth largest electricity provider in the United States.

Our primary business sectors are thoughtfully integrated to establish a strong and enduring revenue framework. GreenenergyFX1 is a leading provider of electricity and natural gas, utilizing a diversified fuel mix of conventional sources such as gas and nuclear alongside renewable energy including wind and solar. The company also operates a specialized digital asset division engaged in industrial-scale Bitcoin mining and proprietary cryptocurrency trading, while leveraging deep expertise as an energy management company to provide clients with complimentary energy efficiency consultations. Our expansion is driven by a team of finance and technology professionals committed to innovation and excellence.
